Managed both internal and external affairs of employees in the company.Also managed employee database.

Vodafone Ghana, Airport — *Anti Money Laundering Analyst*

February 2021 - April 2021

Worked as an anti money laundering analyst in the Vodafone Cash department.

GHOne TV, Accra — *Graphic Design Intern*

July 2021 - August 2021

Worked in the creative department for 2 months. Developed templates that were used to broadcast news, sports highlights and more. Also designed the backdrop currently being used for the Rythmz Covers show.

PROJECTS

Portfolio Website —

Developed my first website with WordPress, which is a graphic design portfolio. Also built a ticketing website that cinemas could use to sell tickets to customers using html, css and js.

 Currently building a new portfolio website with Html,CSS and Javascript.

Mobile App Development —

Developed a cross platform music application with a colleague with React Native and Django.Worked on all Frontend parts of the project.

Developed a mobile app ui in react native for footwear.The app allows users to purchase any type of footwear.

For a school project, we developed a laundry service application called Dryce.The app is currently available on the Google Play store.

I have also worked on two applications for a client with other colleagues..
